

ISF World Seed Congress 2020, Cape Town, South Africa

The ISF World Seed Congress 2020 will be held in Cape Town, South Africa, from 8th to 10th of June 2020. The Congress typically attracts approximately 1500 Delegates from all over the globe; Delegates who are the principals, architects and decision makers of the world seed industry's leading organizations. In 2020, some of the largest biotechnology and vegetable breeding companies have confirmed their participation (Syngenta, BASF, etc.), along with representatives of various research establishments all over the world. Most of the companies and the research organizations are represented at the highest management levels (CEOs, Directors etc.).

CPSBB will be represented by its Director, Assoc. Prof. Dr. Tsanko Gechev, and by its marketing expert, Mr. Petar Kazakov. For CPSBB, this is a fantastic opportunity to meet with the most important players in the field of plant seed production and biotechnology, to share industry knowledge, consider research and technology developments, negotiate agreements, and develop new and existing networks. Linking with industry is one of the strategic priorities of CPSBB.
