

CPSBB featured on Bulgaria on Air, 13.11.2020

Bulgaria on Air, one of the most reputed Bulgarian national TV, broadcasted an extensive reportage about CPSBB followed by live interview with Assoc. Prof. Dr. Tsanko Gechev, the CPSBB Director and PlantaSYST Coordinator.

The video (available [here](#)) presented the Center of Plant Systems Biology, the construction of the new CPSBB campus, as well as the work conducted by some of the CPSBB employees.

During the live interview, Dr. Gechev explained the nature of the PlantaSYST project and emphasized on the support from the European Commission, The Bulgarian Government through the Executive Agency “Operational Program Science and Education for Smart Growth”, and Plovdiv Municipality. He gave examples of the experimental work performed in CPSBB and praised the young and ambitious team working in the Center.
