

CPSBB, as part of the K-TRIO 5 project, participates in the European Researchers' Night

For the third consecutive year, CPSBB is part of the consortium that implements the European Researchers' Night ([ERN](#)) in Plovdiv via the K-TRIO 5 project. The coordinating institution is Sofia University. Partners are Association forum science, Trakia University, University of Ruse, University of Burgas, Institute of mathematics and informatics at the Bulgarian academy of science, Club young scientist, Regional history museum Sofia, and other associated partners. The primary goal of the K-TRIO 5 project is to bring researchers closer to society, attract young people to STEM (Science, technology, engineering, and mathematics), and boost Citizens science and public participation in scientific research. The project will attract young people to science in Bulgaria by raising the social awareness of excellent European achievements in research and innovation ([R&I](#)) integrated into the Centers of Excellence (CoE) and Centers of Competence and their contribution to green, intelligent and sustainable regional development.
